

HOST BUNDLES

New streamlined bundles for host awards!

Tired of pulling your hair out every time you go to place your host half price or award order and they want a Core 4 or worse yet a Stick Trio? The combinations are overwhelming!

THE NEW SIMPLE HOST CHOICE LIST TO THE RESCUE!

We know most hosts choose the same collections from checking the statistics. We also know it takes a Jordie a long time to find the right combo in the back office host award screen.

To simplify rewarding all these amazing benefits, effective Monday, March 14, 2022 the Host Rewards Area will have preset collections for hosts to choose from for the following collections:

THE CORE 4

MAGNESIUM BASIC COLLECTION

TRIO OF STICKS

There will not be any other preset options for these three collections available for hosts to choose from at this time.

EXAMPLE: If a Host wants a Mag Plus, Helio and Energy Sticks as a Trio of Sticks, they would not be able to order the Trio as a host half-price item or use host credit to choose it.

SOLUTION: The host may order the Trio of Sticks with rewards and use host credit for the additional Energy Stick. Or, she could order each stick individually using host rewards and choose another item for the remaining rewards.

We know this is not the ideal setup, however, we know with the growing number of parties, new Jordies, and the growing volume of business, it can save thousands of hours until we have a better solution.

Thank you for your cooperation. Please do not send in support tickets, substitutions will not be allowed.
