

Military Appreciation

▪ Collection Program ▪

Headquartered in the heartland of America, we are proud of all things American, especially our military families.

How JE Supports Our Military

Appreciation Collections

We have selected three of our most popular and beneficial products to go into one special collection just for gifting to our military personnel. This collection may be purchased either as a stand-alone collection (- Self-Ship Collection-) that is shipped directly to you with your order or it may be purchased as a collection (- Overseas Collection -) to be shipped to one of our nominated military units.

Nominate

Consultants may nominate military units to receive Overseas Collections by using the special Military Appreciation Form. All nominated units will be verified and collections will be set aside, designated for that unit. When the required number for that unit is reached, the collections will be shipped directly to the unit.

\$1 Donation

Units will receive the collections on a first come first serve basis. To increase the number of collections given, \$1 from each Self-Ship collection will be donated to purchase additional collections.

Specific Unit Information

If you are wishing to collect orders and send Military Appreciation Collections directly to a specific unit, you will need to choose the Self-Ship option and send to the unit of your choice.
