

# 25% My Discount Order

## Your Portal to 25% Off Product Retail Sales

Introducing 25% My Discount Order, a groundbreaking order type from Jordan Essentials offering a 25% upfront discount on product retail purchases for the first time in our history! This guide will help you understand the benefits, the timing, and how to make the most of it.

In today's tight economy, placing an order and then collecting the retail profit has many benefits. However, it also requires upfront cash, including orders for yourself, your family, and when you want to have inventory on hand. How can I help you find what you're looking for today?"

## FAQ

### **What does this do to the tax and shipping rate?**

Nothing changes. This order type counts for all incentives, commissions, and qualifications. You will pay the full retail tax and shipping, and we will remit the sales tax on these orders for you. This ensures you get full retail credit (personal volume) for the orders.

### **Does 25% My Discount Order allow me to get the Power Seller Bonus?**

Yes, it does! All orders placed under all personal retail volume order types count towards the qualification based on retail volume.

### **What if I have a team? Will I be able to count 100% toward my personal volume and my team's volume (Group and Downline)?**

Absolutely! All calculations are based on regular retail price. This order type simply allows you to buy at 25% less than retail and skips the ewallet deposit.

### **If an order is placed on my website, how do I get paid?**

Your 25% and all other commissions will be paid to your e-wallet as usual. Your retail profit - 25% - is put into your e-wallet instantly. Other commissions such as Volume Bonus and Team Overrides, will pay out monthly as usually.

### **Can I use this order type on a party order?**

No, you cannot combine a party order or any other order with a 25% My Discount Order.

### **Where do I place 25% My Discount Order?**

Log into your password-protected back office and place orders under the 25% My Discount Order type. The cart will automatically apply the 25% discount plus retail shipping and tax.

### **How do I sponsor using 25% My Discount Order?**

Many people today want to feel part of the Jordie world, seek a discount, and look for ways to make extra money. This order type allows people to join, get an instant discount, and then collect the profit from customers or use it for personal orders without working through the wallet system.

### **What if I like the e-wallet and do not want MyWholesale25?**

You can continue to place orders at the full retail price by placing them using your Customer Account.

### **Does the 25% My Discount Order discount apply to sales tools, logoware and catalogs too?**

You may place an order for those items using the 25% My Discount Order, however, those items are not retail items and do not offer any Personal Volume commissions. They will not be discounted 25%.
